

CROWDSOURCED VT

Crowdsourced VT is an annual community film project, a statewide remake of a feature film, created by nearly 40 teams of creators. Participants gain new skills, express their creativity, build community, and contribute to a fun re-imagining of a beloved film, with training and tech support provided by nonprofit The Media Factory, in collaboration with Vermont community media centers.

This year we are re-creating Home Alone! Between the practical effects and the slapstick action, it's going to be a very entertaining film.

Help us defeat the Wet Bandits and bring the project to the big screen!!
